For Vendors, Partners & Team

I am about to launch a political movement that will change how people think about our government.

Reset America is exactly what the public has been demanding. This can possibly become the fastest growing political movement in history. I am the 2011 Marketer of the Year… and earned 400 awards in advertising. (Here is a link to my marketing company, www.AngelCore.com.)

I am interested in what you could do to help me kick this off the ground. I need to earn $5k per month asap. This is a marquee account. Here is a list of services that I could use. Obviously, I don't expect to do all of this at once. I just want to kick off this movement asap.

I'm also known as "Mr. 3rd party. I'm the leading 3rd party activist in the country, having run both Libertarian and Green Parties. In 2007, I produced a video which earned four awards for best short political documentary. And I produced pilots for a sitcom with the Comedy Channel.

I just finished writing a book called Mistaken Beliefs that is sure to become a New York Times bestseller… not only for the content, but because I've achieved this same success with other authors as part of my marketing business, AngelCore. Btw, I'm also interested in your services for these projects as well.

This document includes all the messaging and resources needed to support these programs. This text still needs editing, but it's a good starting point to develop a specific plan. On the next page, there is a list of possible ways that we can promote this message. Please let me know if you're interested in participating in this project in one or more of these areas.

Elevator Pitch (for sm, videos, about pages)

New Homepage Text – 148 words

People are demanding 3rd parties and Congress is terrified. So, they are passing laws to purposely prevent competition. This is the only way that they can achieve an extraordinary 95% re-election rate with the lowest approval ratings in history. ~~They are breaking the same laws that they themselves passed to prevent competition.~~

We have a foolproof plan to add competition to our corrupt 2 parties by passing Term Limits, Rank Voting and Equal Rules to give 3rd party candidates a fair chance to get elected against corrupt career politicians. 80% of voters already want these changes

There are simple, no-cost solutions to our worst problems, but they are hidden because they don't raise money for re-election campaigns. We have a plan that is 100% guaranteed to pass Congress. It's all explained here and in this video.

You ~~already~~ know the problem… and you know the solution.
or
Stop bitchin', instead… join Reset America.

Full elevator pitch

A Foolproof Plan to get Term Limits

~~Our nation and quality of life are being destroyed, but the cause of all our problems comes down to one thing… and that is that every decision from Congress is based on how much money it will raise to pay for their increasingly expensive re-election campaigns.~~

There are thousands of podcasters, talk shows, news outlets, reporters. But none of them address the core problem or offer a real plan to fix it. 10 million people attended the No Kings protest… but will anything change?

NO!… because it's impossible to unseat an incumbent member of Congress - so, we end up re-electing the same corrupt politicians who created this very disaster in the first place. This is because Congress gets to make all the laws and election rules that even apply to themselves. It's the greatest conflict of interest in our history.

Reset America is a realistic plan to get these changes approved by Congress.

1. Term Limits to elect people who are not for sale.
2. Rank Voting so you can vote for who you want without the risk of getting your opponent elected instead. That's called the spoiler effect.
3. Equal Rules to give outsiders a fair chance to get elected. Everyone wants 3rd parties, but you need to know the rules are different for us.

The good news is 80% of the public already want these changes, so we don't need to convince you of anything new. We are just offering a realistic way to give everyone what they already want. And though everyone wants these changes, voters still don't know how critical these changes are to protect our future. This is all explained in our book, Mistaken Beliefs. It's free when you Join Reset America.

Now, you might think that we will never get support from Congress since they would never vote themselves out of a job, but we have a plan this is guaranteed to pass Congress. This plan is plainly explained on this webpage and in this video.

We're always told that competition is "great for everyone", but both parties fight vigorously to prevent it for themselves. They are constantly building greater barriers that are purposely meant to prevent ~~any~~ competition. And it works. With the lowest approval ratings in our history, they achieve a 95% re-election rate! ~~This can only happen if there is no fair competition~~. And now that voters are taking 3rd parties seriously, both parties are terrified and are making election laws even more unfair, ~~if that's even possible.~~

If this were a business, then they would be in jail for breaking the same laws that they themselves passed to prevent what they are doing. This is hypocrisy on steroids. The bottom line is that Congress openly sells you out because they know that they will be re-elected… no matter what. ~~And as elections get more and more expensive, Congress is selling you out even faster.~~

There are more than just 2 positions on every issue. There are simple, no-cost solutions to our problems, but they are covered up because they don't raise money for re-election campaigns. It doesn't matter what you want changed in Washington, nothing will happen until we stop re-electing the same corrupt politicians who created this disaster in the first place.

Einstein said that the definition of insanity is doing the same thing over and over and expecting different results. Isn't that what we all were doing?

The only chance that you will ever have to achieve your specific goals is to join together towards this common goal of getting money out of our elections. We must put aside issues that the parties use to distract and polarize us. Our only chance to survive is starting over.

Reset America is completely non-partisan. We do not support any party or issue. You can be Democrat, Republican, Liberation, Green, even Fluorescent. Our only goal is to unify all people around our common desire to break the two-party monopoly.

The timing is perfect. The approval ratings for both parties are at record lows. The Democratic Party is at 29% (a 20-point crash since 2021) and the Republican Party is at a miserable 36%.

We also need people to join our crew. We need motivated folks to help with social media, videos, podcasting, merch and fundraising. Also, Mike is not going to live much longer so we need people who can take over this project after he's moved on to a land where elections are fair.

Finally, we urge you to read our book, Mistaken Beliefs. It's about facts that were once true, but now the opposite of them is true. It's going to make you look at our deep-seated beliefs in a very different way. This is free when you join Reset America.

~~The last 3rd party candidate to be elected president was Abraham Lincoln.~~

~~Was that a "Wasted Vote?~~

The bad news is none of this matters nothing will change nothing is going to change why because laws are made by Congress and Congress living their dream life they have no reason to change.

Their job is to get reelected and have a 95% reelection rate with my dad the lowest approval ratings in history. They don't want to change they have no reason to change they don't want to change the point fingers and avoid blame.

It is higher than the Former Soviet Pollitt Bureau

The difference in income is our biggest problem we need a middle-class coming up Third World they think we don't have middle-class was considered rich now owning a plane now I live in the streets like you middle-class update the way weeks away from losing my house and I live in this economy same economy you live in and am telling you in the real rich which I was like this difference very different you you don't struggle at all it's a different life now lifestyle different light and they run government everything Bernie Sanders says is 100% true.

Just take a fraction of what you normally give to Democrats and Republicans - and spend those funds to solvie our root problem… that is, ending our destructive and corrupt 2-party monopoly that's wiping out our middle class.

Please give your Time or Money

There are many people who don't want us to succeed / who want to shut us down. These are people who profit from the swamp, politicians, Washington insiders, contractors, lobbyists… the whole swamp. So, please broadcast this message to everyone now… coworkers, schoolmates, bail bondsmen, your Shaman, and fellow astronauts. Before they shut us down.

Sounds ridiculous?

I know that a lot of things I'll say will sound ridiculous, but I assure you it's all true. This happened 20 years ago when I won best short political video. I mentioned how insider-trading was legal. People thought I made it up until the media looked into it. There was one meaningless law passed to prevent it, but Obama later vetoed it. We also killed the National ID but they snuck it back into some other late-night bill.

START

Thanks for listening to me. I'll get right to it. We're going through a lot these days, but the cause of **all** our problems comes down to **one thing**… and that's every decision from Congress is based on ~~how much it'll help-em stay in power - specifically~~ whoever pays them the most ~~money~~ to fund their re-election campaigns.

There are hundreds of news outlets, reporters, podcasters, talk shows, blogs and videos -- exposing hypocrisy, reporting the latest crimes. Politicians delivering passionate speeches that get huge applause. Both sides yelling - no one's listening. Every little thing is torn apart and twisted to help "their side" get an advantage. What's all this getting us? So, after all the cursing, yelling, bitching, protesting, liking posts, forwarding videos… What's being accomplished?

But none of them address the **core problem** or have a plan to fix it.

10 million people protested at the NO Kings rally, but will it make a difference… **NO!...** Nothing's going to change… because it's ~~almost~~ impossible to replace incumbent members of congress. The problem is so blatant that they're not even afraid to admit it. They call it their "incumbent protection program". Voters are demanding change and congress is **openly fighting** to get themselves re-elected against the wishes of voters. This is a crime and it's illegal.

I always hear that 'no one is above the law'… but congress is they **make** the law. [*BTW, you can help me sue the federal government. You can get the facts on GFM.*]

So, we end up re-electing the same politicians who created this disaster in the first place. This is because congress gets to make the laws that effect themselves… including re-election rules that apply to their **own** elections. Are you okay with this? Cause if you're not then do something about it. Join Reset America and get a copy of our book, Mistaken Beliefs.

NO REASON TO CHANGE: It starts with electing people who have **our interests** in mind - not their own. It doesn't matter what you want changed. The system is the way it is because the people in charge made it that way - so nothing's going to change until we stop re-electing the same career politicians who created this mess in the first place. And as elections get more and more expensive and they're selling you out even faster. ~~In other words, you have no chance of getting what you want because if it could be done better, it would've changed by now~~.

We gotta put aside distraction issues that the media and 2 parties use to point fingers and polarize us. It's a complete waste of time debate policy on **any** issue until we hold our leaders accountable… ~~and it starts by changing how they're incentivized.~~

They always say how competition's great for everyone, but they take **extreme steps** to prevent it for themselves.

Everyone wants 3rd parties, but the rules are different for 3rd parties. Do you know that in some states you need 10 times more signatures ~~than the 2 parties~~ and if one name is wrong, the entire sheet is thrown out or if you don't get the minimum number, you get charged for each signature you did get? This is how they closed the reform party. We're tied with Iran for being the most difficult country to get a name on a presidential ballot. There are three requirements to be a democracy. We come in last in every category. Who does this benefit? You… or the people who pay for elections.

Everyone wants 3rd parties, but you need to understand that the rules are different for 3rd parties. Think about it… with the lowest approval rating in history, they get a 95% re-election rate. There's only one way this can happen, you purposely prevent competition. Who does this benefit? You… or the people who pay for elections.

If this were a business, they'd be in jail – for having broken the very same laws - that they themselves created … for this very reason… preventing competition! And as voters gave up on the 2 parties, Congress is making election laws even more unfair, if that's even possible.

And because they **know** they'll be re-elected no matter how blatantly screw you. They have **no** incentive to change what they're doing / to put your interests before theirs… they have **zero incentive** to do what's right.

<u>3 changes to our election rules.</u>

We're fighting for 3 specific changes to our election laws. ~~Here are the benefits for each one of these. This is from our book, MB, which is free for the time being.~~

1. <u>Term Limits</u> to stop career politicians from selling out to raise money for re-election campaigns and instead electing people who care about us – and not just themselves. But that's not good enough, if we want to get rid of the parties, then we also need…

Copyright (c) 2025
503-805-7333

2. Rank Voting to get rid of the spoiler effect so you can vote for whoever you want and not risk the 'other side' from getting elected. And we also need…
3. Equal Rules to give 3rd parties an equal chance to get elected. Everyone wants 3rd parties, but you need to know that the **rules are different**.

There are many reasons why we need to make these changes, and I urge you to read them in our book, Mistaken Beliefs… free for the time being to help get out / spread this message.

Now, I know you're thinking… we'll never get support from Congress since they won't vote themselves out of the best job in the world. But we have a plan that's guaranteed to get through Congress… and I'll lay it out in a minute.

Public Opinion Polls

Now, here's the good news. You already want these changes. 80% want term limits, 75% want 3rd parties and 80% who've used Rank Voting say they "like it. So, I'm not trying to convince you of anything new, I'm just providing a **realistic way** to give you what you **already know we need and want.**

But even though almost everyone ~~80% of people~~ want this, you still don't know how important this is. I urge you read the chapter in our book, "unfair advantages of incumbents." It lists the many, many ways incumbents (from "both sides") rig the system to stay in power.

There IS NO more important issue than this. Our election laws should NOT be made by the people running in the elections.... but we can fix this just by following this plan and changing the way we elect people to run our country.

There are a gazillion organizations of one "side" beating up on the other. What's that accomplishing?... except making matters worse? This is the **only** message that's bipartisan and deals with the root problem… its also why everyone loves this message. [red, blue, fluorescent]. So we're not as polarized as they want us to think.

People who don't vote don't care.

People say we're split 50-50 between D & Rs, but that's not true. 40% don't vote. That means each party really only has support from 30% of the public. It also explains how trump won the R nomination in 2016 with just ___% of the vote / public.

This 40% of people who don't vote isn't cause they don't care. They just don't see a difference - and they're right. They pretend to fight each other and in the meanwhile screwing us to stay in power. If you still think there's a difference between parties, then take the quiz on our homepage.

The Plan

So I asked myself, how does anything get passed? Well, we know the only legislation to pass congress is whatever gives them the most money to get them re-elected. So just like any bill, we them pay-off. In other words, we use the same illegal practices of congress to work for us.

So, here's my plan. You elect me to Congress here in Oregon. I'll introduce bills to pass these changes [Term Limits, Rank Voting and Equal Rules]. Obviously, it'll just get ignored. So, we sweeten the deal. We let them keep their jobs for an extra term – their retirement package. Then, we give-em a 100k incentive to leave office and increase it by another 100k until we get majority support in Congress.

We don't need everyone's support; we just need a majority. It's guaranteed to work cause it's how every law gets passed. (I hate to have to pay our "leaders" to do what's right for people, but sadly, sometimes you need to play the game in order to win it.)

Run for Congress

It won't be hard getting elected. This is all explained on GFM.

1. First, 80% of voters (on "both sides") already agree with this message.
2. Plus, I can choose among all 8 districts to run in – ~~including a R district with an unpopular representative that we can very possibly flip a seat.~~
3. And get the nomination from multiple parties… it's called fusion balloting – (I helped pass it… I just didn't think I'd be the one using it.)
4. And the timing can't be better. Approval rates for both partes are at record lows. The D party is at 29%... [that's a 20 point drop since 2021]. And the R's a miserable 36%.

This is our **last chance** to take back control of our government. Please watch our other videos. I'm doing the best that I can with them, but with more resources, we can drop better videos and fund a full-length documentary based on our award-winning video from 2007.

Videos to Watch

I urge you to watch our video about my book, MB. It's about things that were once true but aren't anymore… and how these lies are messing everything up. It's going to make you look at our deep-seated beliefs in a very different way.

There's our 2007 video that won best short documentary, pilots for our television show [display seal] from the comedy channel and speeches from libertarian and green party ~~national~~ conventions. I'll include links below.

We don't need much money to make this happen, but I do need some. We have many programs in the works - and with just a little help from you, right now, we can make this happen.

I've donated 1000's of dollars to fight for your freedom and now I need some help in return. I don't want to guilt trip you - but millions of people died to give us the right to vote for who we want.

~~Incentive / Human Nature~~

One dangerous lie, ~~A common lie~~ is that our politicians are to blame. They're not. Politicians are human – and humans look after themselves. Self-preservation… first law of nature, ~~right~~? So, why do we blame our politicians? It's **our fault** for not keeping them accountable.

Let's be honest… if you give unlimited money and power to a small group of selfish people – over time they'll rig the system to stay in power.

The goal of Congress **isn't to help us**. It's to **get re-elected**. And with a 95% re-election rate, the system works exactly as it is designed to work. The problem is your goals, and congresses are not the same.

ViFA3PIAWV

But the most dangerous mistaken belief is one you've heard a thousand times, and that's "voting for a 3rd party is a wasted vote". The truth is the only votes that **really matter** are those for 3rd parties. Voting for a D or R **is** "wasted". And it's not just 'wasted', it's destructive because it contributes to a system that's destroying us.

People will lose money

There are some people who stand to lose a lot of money if this plan works. They will do whatever they can to fight this movement. Get from book re how the dc culture. That's why we need to do this now... before we get shut down.

Fundraising / Universe

It took me a long time to prepare all this material. But to keep going I need money I sacrifice everything I had in getting to hear and but I'm really happy with how everything came out and I'm 100% sure this will happen…not to mention that I faith that the American people will do the right thing and support this project.

Universe – meant to be. I feel so strongly that once people know the facts, they will vote for what benefits them – instead of how society tells them to vote. This is why I started Reset America… and why I put everything I had into this. Please help me happen before I die. <Something funny> universe / faith in the ap.

I'm not going to live much longer so it be a shame if this plan was lost with me. If there's one thing that you can do before I die, it's to join Reset America… and help us sue congress for all their obvious conflict-of-interest violations.

I also desperately need your help with social media, videos, podcasting and fundraising. I especially need people who can think for themselves and believe in the intelligence and goodness of others.

We're never going to fix our problems by re-electing the same people who made them in the first place.

If this doesn't happen, then only we're to blame because we couldn't think for ourselves and we failed to hold our "leaders" accountable ~~cause we followed the herd and didn't think for ourselves.~~

ENDING QUOTE

What Is Reset America?

You're referring to Reset America, a political organization (and movement) focused on breaking the grip of the two-party system in the U.S. by promoting electoral reform and enabling third parties and independent candidates. Here's a breakdown of what it is and what it stands for:

Reset America presents itself as a platform aimed at ending the bipartisan monopoly that dominates U.S. politics. Its core mission includes advocating for:

- Term limits for elected officials
- Ranked-choice voting, to empower voters and reduce strategic voting
- Equal campaign rules, leveling the playing field for third-party and outsider candidates
- Legal action to challenge conflicts of interest in Congress
- Mobilizing a 3rd Party Response Network
- Producing a documentary to expose how the two major parties suppress political competition

The organization portrays its approach as non-violent and strategic, emphasizing that "there will be a revolution—but if we do this, then it won't be a violent one."

They appear to offer resources for engagement—such as "Mistaken Beliefs" content, quizzes, recruitment for media production, and plans to launch satirical or entertainment-based programs targeting political reform.

Context & How It Differs from Similar Movements

While Reset America zeroes in on dismantling the two-party hold through structural reforms and third-party empowerment, other movements share overlapping but distinct goals:

- Reboot America — another grassroots pro-democracy movement advocating a pledge for politicians to reject big-money influence, adopt electoral reforms, and adopt democratic innovations like ranked-choice voting and open primaries.
- Unite America — a centrist group formed in 2013, backing independent-minded candidates and reforms like ranked-choice voting and open primaries.
- Renew America Movement — started in 2021, aimed at reducing political polarization; it merged into the Forward Party by 2022.

he common thread across these groups is a dissatisfaction with America's partisan system and a push for democratic reforms—but each has different strategies, messaging, and organizational structures.

Movement	*Mission / Focus*
Reset America	Electoral reform; rank voting; term limits; support third-party candidates
Reboot America	Broad pro-democracy reform; digital civic tools; elected pledge for reform
Unite America	Centrist; ranks-choice voting; independent candidates; bridging partisan divide
Renew America / Forward	Anti-polarization; merged into new third party (Forward Party)

About Section

Hey, welcome to my YouTube channel. This is for Reset America, but it's also for personal videos. I simply don't have time to manage 2 different YouTube channels - and this should help with monetization… that is making money when enough people watch these videos. Basically, we need 1000 subscribers watching 4000 hours of videos. So come back often to watch more videos. I plan to narrate my whole book in upcoming videos. This book is gonna change how everyone thinks about government.

1. This video's about Reset America. In the broad sense, it's about changing who makes laws that affect Congress because right now Congress makes its own laws including their own election laws. The two parties make it impossible to run against-em. This is how we end up with a 95% approval reelection rate with a 10% approval rating in a 95% re-election rate.

   There are not just two solutions to every problem. There are valid practical solutions to all threats, but they don't help congress get re-elected. War, illness, and debt means profits to businesses and therefore lots more campaign contributions. But peace, tranquility, living within our means… these don't help politicians get re-elected.

2. This is about my book Mistaken Beliefs. It's about why everything you think you know about government is wrong. This book will change how everyone thinks of government.

3. Pilots for the TV show I like Mike

'I Like Mike' television pilots, my favorite political videos and family and other videos.

I'm mostly posting these videos to embarrass that shit out of my children. Oh right… I can't swear in these videos. I guess they'll be lots of bleeping – especially in my political videos. Here are some clips…

- I Like Mike… Fly on meatloaf.
- Best segments of the Reset Video
- MB video: Top ten Mistaken Beliefs
- Lilia – Santa Clause

Some of these videos are older and not as slick. These were my first attempt at making videos)… but the content is 100% accurate.

Please watch this video about Reset America. I put everything I have into this and I can't continue with it unless it starts paying for itself. Please donate $10 to support the only realistic plan to solve all our political problems.

I've given thousands to help various causes and now I need a little back to support movement to give you what you know you are you want. The funds will go towards going out on third party response network. This is explained around my book and website hub links to all this information below. Most important, spend a few minutes to forward this to your friends and post comments anywhere on social media. Many of you already commented and forwarded my first video and please do it again!

This is a program that we can quickly execute. A small donation of $10 can help make it happen. Please visit our GoFundMe and Patrion links.

Mistaken Beliefs - “Description” text

2431 / 5000

This video is about our book, Mistaken Beliefs. Half of it is posted on our website for free at: http://www.ResetAmerica.com/book. It will change how everyone things about government.

It’s about dangerous lies that are destroying our country and why everything you think you know about government is wrong. The book sheds the truth about beliefs that were once true but are no longer and why we vote completely opposite to what we say that we want. It also uncovers our Top 10 Mistaken Beliefs and how fixing our political system is easier than you think.

The Top 10 Mistaken Beliefs are:

1. The American people are polarized.
2. People don’t care.
3. The problems in Washington are caused by politicians.
4. We have democratic elections.
5. There’s a difference between the 2 parties.
6. With enough money, we can solve any problem.
7. Economic data is clear and constant.
8. America is a rich country.
9. We make logical voting decisions based on facts.
10. Voting for a 3rd party is a wasted vote.

RESET AMERICA

A Simple Plan to take back our Government.

People are demanding 3rd parties and career politicians are terrified… so they pass laws that purposely prevent competition. This is the only way that they can achieve an extraordinary 95% re-election rate with the lowest approval ratings in US history.

We have a foolproof plan to add competition to our corrupt 2 parties by passing Term Limits, Rank Voting and Equal Rules to give 3rd party candidates a fair chance to get elected against corrupt career politicians. 80% of voters already want these changes.

There are simple, no-cost solutions to our worst problems, but they are hidden because they don't raise money for re-election campaigns. We have a plan that is 100% guaranteed to pass Congress. It's all explained here and in this video.

Reset America is about adding competition to our corrupt 2 party monopoly. We have a 100% guaranteed plan to get Congress to pass the following changes to our election laws: term limits, rank voting and equal rules to give 3rd parties a fair chance to compete with self-serving politicians from both 'sides'.

Some of this text is old.

I started writing the text for Reset America over 15 years ago. But though this text is old, all the problems that existed then still exist today. In fact, they are orders of magnitude worse - if that's even possible. Moreover, new threats have emerged that were created by the very same career politicians who created them in the first place.

Though some of this data is old, I assure you that, for the most part, recent figures are far worse than reported on our website, in our videos and in our book, Mistaken Beliefs. The sources of this data appears at the end of our book… which is available online.

We have a new and better plan.

Over the years, we have made the Reset Plan easier to understand and complete – but it is worth keeping the following text because it shows what's possible when we elect people who have our own interests in mind. Learn about this new plan here webpage or watch this video.

You already know the problems and you already know the solution. Stop bitching and Join Reset America right now.

Our Plan

resetamerica.com/plan

New Menu Item & Page

Our "Foolproof" Plan

You may think that Congress will never cooperate, but we have a simple plan.

We have a New Plan

You may think that getting Term Limits is impossible since politicians won't vote themselves out of the best job in history. This is where their own criminal practices work to our advantage.

This message is evolving. Our original plan is much different from where it is today. This new plan is easier to understand and implement. It is described below and in this video. (Since our plan has changed, some of the text on this website and in our book describes our original plan. Nevertheless, here's how our original plan has changed.)

At first, I created a list of Reset America Principles. If a candidate swore to obey these principles, then we would let them include our logo in their messaging. Then, we would convince voters to only vote for these candidates. But let's face it, that's a lot of work!

Then a light bulb went off. I asked myself; how do any laws get passed in Congress? The answer is whatever helps them stay in power and that usually means whomever gives them the most money. Nothing is done for the good of the people. Everything is done for the good of themselves.

I'm a Realist

We know that every politician has their price. So we simply we use the same unethical practices of today's career politicians to work in our favor.

So, here's our plan. You elect me (Mike Jingozian) to Congress in Oregon. I will introduce legislation to pass these changes to our election laws: term limits, rank voting and equal rules. At first, it will be ignored, so we sweeten the deal. We let them keep their jobs for an extra term. Then, we sweeten the deal more by giving them $200k as an incentive to leave office, and we keep increasing the amount by $200k until we have enough votes.

Passing these changes will not be hard so long as the bills are written in the incumbent's favor. Politicians who support these bills early will get better terms, so they are incentivized to be an early supporter. We don't need everyone's support. We only need a majority. Plus, there are many politicians who already support these changes, including most former presidents and members of congress.

You already know the problems and you already know the solution. Stop bitching and join Reset America right now. To learn about this new plan, watch this video.

I hate to have to pay our "leaders" to do what's right for the American People, but sadly, "sometimes you need to play the game in order to win it."

Our political condition is a complete shitshow. We can no longer keep re-electing the same people who created the mess that we have today. We must take **immediate steps** to take back our government to protect our way of life.

They always say that competition is great for everyone – but they vigorously and shamefully prevent it for themselves. They are breaking the same laws that they themselves passed which makes what they do illegal - that is, prevent competition. Can you believe this?

Make a Real Difference

There are simple, no cost solutions to our worst problems, but these solutions are hidden because they don't help politicians raise money to get re-elected.

Congress openly sells us out because they know that they will be reelected, no matter what they do, because they're able to pass laws that prevent competition. Think about it… That's the only way that they can have a reelection rate of 95% with the lowest approval ratings in history.

And now that 3rd parties are getting serious attention, Congress is making election laws even more unfair… if that's even possible.

Politicians are always talking about how competition benefits all, and they even pass laws that make it a crime to prevent it, but why isn't competition good for the 2 parties also?

A Simple Solution to our Biggest Problem.

Our only solution is to vote for candidates who support these changes to our election laws.

1. **Term Limits** to elect people who will put our interests first.
2. **Rank Voting** to eliminate the spoiler effect so you can vote for who you want.
3. **Equal Rules** for giving 3rd party candidates the same chance to get elected as our corrupt incumbent politicians.

We demand term limits for all federally elected political positions and appointments for federal office including judges and the Supreme Court. No one should be giving a job for the rest of their lives without any accountability.

These changes won't solve all our problems overnight, but they are a necessary first step for any meaningful change to happen.

We are not as "Polarized" as they want us to think.

According to polls, 80% of voters want these changes that we're fighting for… proving that we are not as polarized as the 2 parties want us to think. So, we are not trying to convince you of anything. Reset America is simply a plan to give you what you already know that we need. Most important, nothing about us is partisan. We are not about any specific issues (other than having fair elections.) You can be red, blue, green, fluorescent, even plaid!

Most important, we have a full proof plan to get these changes made. It's simple, barely costs a thing and is 100% guaranteed to pass Congress. It is all explained in this link and in this video.

We have Programs ready to Launch.

There are many exciting projects that we'd like to launch, and your help we can do this faster. These include powerful and compelling videos, social media programs, and building a volunteer army.

GoFundMe – Sue Congress

Let's Sue the 2 parties for blatant Conflict of Interests against the American People.

- [Help us sue Congress, visit our GoFundMe page or contact us directly.]

What is Conflict of Interest?

> "The basic criminal conflict of interest statute, 18 U.S.C. § 208, prohibits government employees from participating personally and substantially in official matters where they have a financial interest."

A conflict of interest occurs when an individual's personal interests – family, friendships, financial, or social factors – could compromise his or her judgment, decisions, or actions in the workplace.

Reset America vs. The US Congress

Along these lines, we created a go fund me campaign to raise funds to sue Congress for blatant violations of conflict of interest against the Constitution and American People.

The foundation of our Constitution is built on maintaining balance of power and prohibiting conflicts of interest. Yet, the laws that affect Congress are written and passed by the members of Congress themselves... making this the greatest conflict of interest in history!

When our Constitution was written, there was no word for "career politician". It was never considered a possibility that someone would serve in government for more than one term. Whether you are a strict constitutionalist or not, you must agree that the law is on our side.

This is taken from our book, Mistaken Beliefs. Take for example Senator Joe Manchin (Democrat). He was recently chairman of the Senate Committee on Energy. This is the top position in ensuring we pursue more climate-friendly policies - and he is adamantly against addressing global warming. Do you think that it has anything to do with the fact that he owns a coal company, Enersystems, and last year alone, he was paid $492,000. Or that he receives the most funding in the senate from the oil and gas industry?

Here are the different types of conflicts of interest that apply to this case.

Absolute Immunity

Congress gave themselves absolute immunity from being sued or prosecuted for legislative acts This means that no member of Congress can be brought to justice for actions that you and I would be convicted. This protection is broader than just "qualified immunity" which is what you may already be familiar with, for example police. Here are some of the crimes that fall under absolute immunity.

- They openly violate their own laws and oaths.
- They aren't held accountable when they leave office for the terrible policies that they supported.
- They ignore subpoenas and court orders.
- They hire family members and people unqualified to do their job.
- They use fake and biased data.
- They hold financial interest in matters before the legislature, including insider trading.
- They have outside income interest.
- They receive gifts and honoraria.
- They disclose nonpublic info for personal gain.
- They use public funds and employees time for running campaigns.
- They don't follow standard accounting rules when determining data like: unemployment, GDP and the debt. If I use the same accounting practices that Congress uses then I would be in prison for life.

But since **both parties** violate these rules, no one objects.

Election Laws

The 2 parties create steep hurdles that prevent the names of 3rd party candidates from appearing on ballots. Many of these are illegal. Here's one example.

Gathering signatures is hard work and the 2 parties know this. This is precisely why they require an unreasonable number of signatures just to get the names of candidates on ballots. What's more, the number of signatures required by 3rd parties can be up to 10 times more than those required by the Democratic and Republican Parties.

In addition, people are scared to give out their personal information to strangers at a time when cyber-crime is exploding. And if just one signature is wrong, then the entire sheet is thrown away. Who is this meant to benefit?

3rd parties are constantly suing states and the federal government to defend against illegal campaign practices that prevent competition. Over the past 10 years alone, there have been over 100 lawsuits brought by 3rd party and other independent groups. These cases are seldom lost. They are either won, or they are thrown out by judges whose careers are influenced by their decisions.

But after collecting signatures and suing the government, there are no funds left for the important activities that the Democrat and Republicans take for granted, like fundraising, promoting candidates, outreach, candidate development, volunteering, media development and so on and so on.

Fundraising

Every year, the 2 parties give the super-rich more ways to buy their influence. There seems to be no limit to how much they will sell you out for their own benefit.

The cost of re-election campaigns (for “both sides’) is skyrocketing – so both parties must raise even more money to keep up with fundraising from their opponent. Of course, this means selling out our nation even faster.

Fundraising regulations are a maze of loopholes that can be interpreted different ways depending on which rules are exploited by which party. For example, the limit you may contribute to candidates is $3500 per election, On the other hand, you have one individual who gave Trump $250 million. If you can’t explain this, then you’re not alone.

The Supreme Court case, Citizens United, removed all limits on how much one can donate to campaigns and opened the door to unlimited dark money. Now, the superrich can spend funds to influence elections without voters knowing where the money came from. Are you okay with not knowing who is paying to buy your vote and how much?

Personal Benefits

Congress has the easiest job in the world. They don’t hold real jobs. They don’t struggle to make ends meet. They don’t sit in traffic. They don’t get searched in public places.

- They make a minimum of $174,000 a year and get paid while campaigning.
- They pass laws that exempt them from accountability to personal responsibility.
- They aren’t held accountable when they leave office for the terrible policies and have no consequences when they spend money we don’t have.
- They have zero oversight or accountability.
- They have no performance reviews or checks and balances of any kind.
- They get a generous expense allowance that covers everything from first class air travel to free access to elite gym memberships.
- They travel around the world with their family and friends, paid for by debt spending.
- They’re given gifts, meals, attendance at events and vacations from lobbyists.
- They get outstanding life and health insurance and free out-patient care at any hospital.
- They get full life-time retirement benefits after just five years of service with a premier retirement package that extends much farther than social security.
- They have a 2 day work week. Members of Congress typically arrive in Washington on Tuesday night and fly home Thursday evening.
- They get free printing and postage for sending mass mailings to voters and full-time staffs who are dedicated to win re-election campaigns.

Can you think of conflicts of interests that are more blatant as these examples?

GoFundMe – Running for Congress to Execute the Reset Plan

Getting elected to Congress to execute the Reset Plan

Our goal is to add desperately needed competition to our corrupt 2-party monopoly. It starts with passing term limits, rank voting and equal rules to give 3rd parties a fair chance to get elected.

We have a foolproof plan to get these changes passed by Congress. You can learn about it here and here. The plan requires that I get elected to Congress. Fortunately, this won't be as difficult as you would expect. Here's why.

1. I've been through a lot of pain and depression over the past 20 years.

   I built a very successful business in 2001 (7 years on the Inc. 500/5000 fastest growing company list) but I lost everything when I got tragically ill. I was literally counting pennies to put gas in my car. But I recovered with the help of social safety nets and the determination to launch this movement.

2. Extensive experience with social safety nets.

   I know what social safety nets work and which do not. I learned how to use them as an incentive to recover. This includes law enforcement, the justice system, medical assistance, hospital care, health insurance and Medicaid. It took 10 long years to recover from my catastrophic health and income problems.

   If I knew back then what I know now, then my recovery would have taken 3 years instead of 10. I felt compelled to document my recovery to help others recover from similar struggles and how to use positive vibrational energy to heal. It's called "How I Recovered from Illness, Depression and Addiction." Doctors at my hospital read it and I was asked to join to the hospital's advisory board. This paper is available for anyone who asks.

3. 80% of voters already agree with this message.

   Even if you're a life-long Democrat or Republican, you must agree that competition is always good… no matter what 'side' you are currently on.

4. I can choose the best district to run in.

   Among the 8 districts in Oregon, I can choose the district where I have the best opportunity to beat the incumbent, including one with a very unpopular Republican congressman.

5. Nomination from multiple parties.

   I can be nominated by multiple parties including Democrat or Republican, Libertarian, Green, Working Family. It's called 'fusion balloting' or 'cross nomination' which I helped pass in 2010. (I just didn't think I'd be the first one using it.)

6. The timing is perfect.

   Approval ratings for both parties are at record lows. The Democratic Party is at 29% (that's a 20 point drop since 2021.) The Republican Party is at eight miserable 36%.

7. I can negotiate the best deal for my constituents since I am not tied to any particular party.

   I can take advantage of the split in power to negotiate the best possible deals for the residents of my district. I guarantee that I will bring in more money than any other congressman for our Oregon. Furthermore, I could be the deciding vote on most close contests including legislative issues, investigations, managing the federal budget and impeachments.

8. I hold a BS in honors economics from NYU's Stern School of Business. (GPA 4.0).

   I understand budgeting, forecasting and why the numbers Congress uses to report GDP, unemployment and debt are completely false. This is all explained in our book, Mistaken Beliefs.

9. This message has very broad appeal.

   This message appeals to ALL citizens, not just the 40% who vote. This gives us 60% more voters. This is more than both the Democratic and Republican parties.

10. I have no worry of attacks.

    Most everything about me is posted online (most of it is true.) I'm not scared of what people will say. I did the best that I could and any controversy will just attract attention… which we can use to our benefit.

We have big fundraising advantages.

For 2 party candidates, it costs a lot of money to run a campaign. But the amount of money that 3rd parties spend per vote is only a fraction of what the 2 parties spend.

- The average cost per vote for a 3rd party candidate is under $3.00.
- The average cost per vote for a 2-party candidate is between $200 - 500.
  It's hard to know for sure because it is impossible to know how much dark money is spent on campaigns.

Apparently, it costs much more to lie than it is to present realistic solutions that put the public first. Just imagine if 3rd parties had just 1% of the money raised by the 2 parties. With this amount alone, we will be able to spread their message to the entire country.

GoFundMe – Expose the Truth behind our "Leaders" positions.

Let's expose their hypocrisy with our "Expose the Truth" campaign.

~~Saying Something vs. Believing Something.~~
Just because someone says something… doesn't mean they believe it.

A politician says something controversial, and it makes the news. The media wastes an absurd amount of time analyzing WHAT they said. They debate their positions… the pros and cons, their take on the latest scandal, and so on… but what they "say" has no relevance whatsoever to what they truly "believe."

~~They say~~ that a politician "believes this" or "believes that"… but in reality, we have absolutely no idea what a politician truly "believes"… all we know is who paid them to take the position that they do. In other words, not about WHAT they say, it's about WHY they say it.

Politicians won't do anything to jeopardize their precious revenue stream. Therefore, it is nonsense to debate a politician position on issues since their arguments are not based on facts but are solely meant to satisfy the needs of their sponsor or benefactor.

How can we expose their hypocrisy? Let's put them to the test.

Let's ask politicians (that you select) to answer a few specific questions. We'll give their favorite charity the amount that you donate here. If the politicians pass a lie detector test, then their charity collects the money. It's absolutely free to the politician but this forces them to take the test since otherwise they're denying their favorite charity this money. We can ask them questions like these:

- Will you support a bill for term limits?
- Who on the 2020 election?
- Should Donald Trump really be president?
- Do you think that the 2-party system is really working?
- Is our nation's democracy heading in the right direction?

For example, you can ask…

- any sitting Republican if Trump is honestly qualified to be president?
- Ask Trump if he lost the 2020 election.
- Pam Bondi if she thinks that Trump is guilty of crimes?
- Linda McMahon if she is really qualified to be Secretary of Education or was this appointment payback for favors?
- Ted Cruz if he really believes that global warming is fake or does he take this position only because he's the largest receiver of money in the House from the oil industry?
- Senator Joe Manchin (Dem) - the owner of a coal company – if he should be chairman of the Senate Energy Committee?

Tell us which questions we should ask which politicians.

Documentary

What other crimes and opportunities need to be exposed? Help fund our full-length documentary based on the book, Mistaken Beliefs, and on our 2007 short video, Kiss Freedom Goodbye. This short video exposed some of the ways that the 2 parties secretly use to rig the system to prevent competition and maintain their grip on power. It gained international acclaim and was honored with these awards.

- The Telly Award for Best Internet Commercial for Political Issues
- The W3 Award for Best Viral Marketing Video for Activism
- The Marcom Award for Best Political Web Video
- The Ava Award for Best New Media Political Video

We are very confident that we can repeat the success of this video with our new documentary.

Comedy TV Program, This Week's Lies

We have plans to develop a political comedy variety show that pokes fun at the lies and hypocrisy in Washington. It's part game show and part news program, and it's called, This Week's Lies. The Comedy Channel and Barely Political produced a number of short pilots based on an earlier version of the show. These videos can be watched on the Reset America YouTube page, here.

Upcoming Podcast

We have other media projects planned, including a podcast and videos to be compelling, passionate, entertaining, and controversial.

Don’t let Career Politicians control your Future.

There’s nothing more important in life than choosing how we wish to be governed. But currently, our political system is controlled by corrupt career politicians who rig the system to stay in power.

There are many things in our country that need fixing immediately. And we can repair them, at no cost, but it starts with electing people who will put **our** interests first, not just their own. Unfortunately, Congress makes all our laws including laws that affect themselves… like elections.

Now is the Perfect Time to start a new Party.

Right now, there is a once-in-a-lifetime opportunity for 3rd parties and candidates. Our government is more split than ever. Just a few truly independent legislators will have the swing vote in many partisan decisions, including majority leader, committee chairmanships, overseeing the federal budget, and approvals for presidential appointees for judges and federal agencies.

All this is Achievable, but only with Your Help.

I'm not asking you to pick up a musket. I'm asking you to click some buttons and make a few comments. There are many who vehemently don't want us to succeed. So, I am relying on you to spread this message while we still have a chance.

- Like all our videos, share and subscribe.
- Leave comments on all sites and videos.
- Stop supporting the Lesser of Two Evils by not supporting Democrats and Republicans.

Take Control of your Destiny.

I’m not going to live much longer. It would be a great shame if this message and plan were lost with me. If there is one thing that you can do for me before I die, it is to support these GoFundMe campaigns. This is truly our last chance to save America before we become a 3rd world nation.

1. Join Reset America to spread this message to folks who want to control of their future.
2. Contribute to my campaign for Congress to execute the Reset America plan.
3. Sue Congress and the 2 parties for blatant violations of conflicts of interest.
4. Expose the truth behind our “leaders” positions by passing a lie detector test.
5. Be a producer of our upcoming doc and TV show with the Comedy Channel.
6. Help us launch OUR TURN, an active 3rd party response network. **ON HOLD**

I also need help with social media, videos, blogging, podcasting and fundraising. We need intelligent people who like to have fun and believe in the goodness of others.

If this doesn't happen, then only we are to blame
because we failed to keep our “leaders” accountable.

GoFundMe – “Our TURN” (Hold)

Help Fund our Third-Party Response Network, “Our TURN”

We have many worthy programs that are ready to launch, but most important, we need a Third-party Response Network, or TURN. (If you can think of a better acronym, then let us know.)

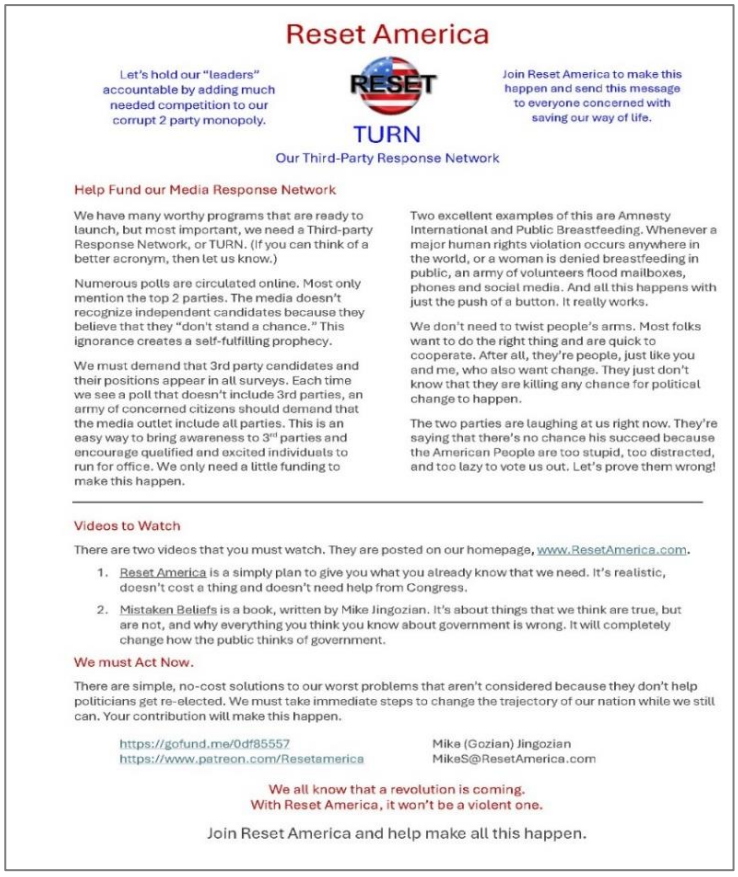

Numerous polls are always being circulated online. Most only mention the top 2 parties. The media doesn’t recognize outsiders because they believe that they “don't stand a chance.” This ignorance creates a self-fulfilling prophecy.

We must demand that 3rd party candidates and their positions appear in all surveys. Each time we see a poll that doesn’t include independent candidates, an army of concerned citizens should demand that the media outlet include all parties and positions. This is an easy way to bring awareness to 3rd parties and encourage motivated and qualified individuals to run for office. We only need a little funding to make this happen.

Two excellent examples of this are Amnesty International and Public Breastfeeding. Whenever a major human rights violation occurs anywhere in the world, or a woman is denied breastfeeding in public, an army of volunteers flood mailboxes, phones and social media. And all this happens with just the push of a button. It really works.

We don’t need to twist people’s arms. Most folks want to do the right thing and are quick to cooperate. After all, they’re people, just like you and me, who also want change. They just don’t know that by excluding alternate candidates, they are killing any chance for political change to happen.

The 2-parties are laughing at us. They’re saying that there’s no chance that this will succeed because the American People are too stupid, distracted, and lazy to vote us out. Let’s prove them wrong!

2. Mistaken Beliefs is a book, written by Mike Jingozian. It's about things that we think are true, but are not, and why everything you think you know about government is wrong. It will completely change how the public thinks of government.

We must Act Now.

Help me publish my book, Mistaken Beliefs

The book, Mistaken Beliefs, is 95% finished. It needs just a few weeks to complete and is guaranteed to be a Best Seller. It is really four books in one.

1. First, we uncover beliefs that were once true but are no longer. In fact, not only are they NOT true, but the OPPOSITE of them are now true. Here are the Top 10 Mistaken Beliefs:

    1. The American people are polarized.
    2. People don't care (and can't be trusted).
    3. The problems in Washington are caused by politicians.
    4. We have democratic elections.
    5. There's a difference between the 2 parties.
    6. With enough money, we can solve any problem.
    7. Economic data is truthful and constant.
    8. America is a rich country.
    9. We make logical voting decisions based on the facts.
    10. Voting for a 3rd party is a wasted vote.

2. We expose the many unconscious behaviors that affect how we all think, and therefore, how we vote. For example, why do elect the same politicians 95% of the time, when 80% of voters want term limits?... and the root causes of our decisions from herd behavior to neuro biases. This subject is more about psychology than politics.

3. The only factors that drive every decision in Washington are fundraising and re-elections. In this book, we discuss the many legitimate and cost-saving solutions that are possible when these are not the only factors that determine every decision in Congress.

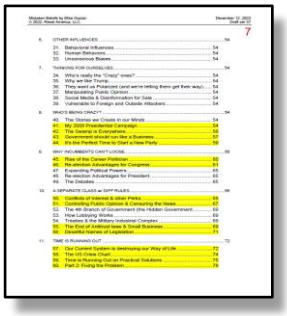

4. We share a realist strategy to save our nation by adding much needed competition to the 2-party monopoly. All the material about this subject appears on our website at www.ResetAmerica.com.

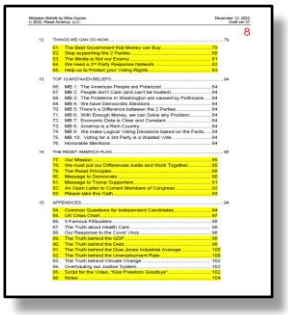

Here is a copy of the Table of Contents. The chapters that are highlighted are available for free at www.ResetAmerica.com/book. It is formatted to easily read on a mobile phone.

There are simple, no-cost solutions to our worst problems that are not even considered because they don't help politicians get re-elected. But time is running out. We must take immediate steps to change the trajectory of our nation while we still can.

Let's see you acknowledge a man whose words make your blood boil, who's standing center stage and advocating at the top of his lungs that which you would spend a lifetime opposing at the top of yours." You want to claim this land as the land of the free? Then the symbol of your country cannot just be a flag. The symbol also has to be one of its citizens exercising his right to burn that flag in protest. Now show me that, defend that, celebrate that in your classrooms. Then you can stand up and sing about the land of the free.

- Can we just put partisanship aside - just this one time - and do something that's for the benefit of everyone… including ourselves?
- There are simple solutions to some of the worst problems, but time is running out. We must take immediate steps to change our trajectory while we still can.
- Our current crop of politicians would like us to believe that the disasters we face should be blamed on external factors or the "other side." This is what banana republics and totalitarian governments do.
- We need to constantly hold our leaders accountable and not be negatively influenced by other people and groups who have their own motives and objectives.
- I don't care where you fall on the political scale, you must agree that having government controlled by an elite group of the mega-rich is not good for the average American.
- If I spent just a fraction of the time and money working as a Democrat or a Republican that I spend creating political change, then I would have a bridge named after me by now.
- A good leader surrounds themselves with people more qualified than themselves. Unfortunately, today's politicians are threatened if they're not the smartest ones in the room.
- In our current trajectory, the US will fail. This is inevitable and undeniable. All countries eventually fail. The question is what will happen to the people, businesses, and resources of our nation.
- There was supposed to be a peace dividend at the end of the cold war – where did that ever go? We spent decades trying to end nuclear bombs… and we finally did… now we're building more than ever. You can't be okay with this!

Bigfoot

- I don't care what you believe in, Bigfoot the earth is flat… but you must agree that this is our final chance to start electing 'leaders; who have out interests and not their own.

Thank you for your comment. However, the message of Reset America is about adding competition to the 2 parties. This forum is not about promoting (or dissing) candidates from the "other side." Also, we purposely don't take a stand on any issue, other than creating fair election laws to give outsiders an equal chance to get elected.

I'm glad your passionate about this issue… but let's face it… nothing is going to change if we keep reelecting the same "leaders" who created this mess in the first place. What's going to motivate them to change? / start looking after us?

LinkedIn: Specific - Vice Chair of the LNC

It's been 15 years since I was Vice Chair of the LNC -- but I haven't been sitting on my ass (well, not ALL the time.) I've been building an organization called, Reset America. We are about changing our election laws to add competition to our failed 2 party system.

It came out better than I had ever dreamed… but it exhausted all my savings. The easiest way to help is to join Reset America. Like our social media accounts, forward our videos and blow karma our way.

Letter to Independent Candidates & Activists

Hello _____,

- I hope you're doing well.
- I see that you are running for office in the ____ party.
- I noticed that you're involved with the ____ party.
- It's been a while since we last connected. I've been busy launching a program to put an end to our failed two-party system.

I am launching a new organization called, Reset America. It is about ending the conflict of interest in that Congress employs to make the election rules that apply to themselves and are unconstitutional / that are meant to purposely create barriers that prevent competition. This is how we end up with a 95% reelection rate with a terrible 10% approval rating.

From ChatGBT

“America doesn’t need another election cycle — it needs a reset. It’s time to reclaim our democracy from career politicians, restore accountability through term limits, and give power back to the people. Welcome to the **Reset America Movement**.”

- “What if we stopped electing career politicians and started empowering citizens again?”
- “It’s time to reclaim democracy — to demand real representation and true accountability.”
- “We’re launching a movement to redefine power — not for politicians, but for the people.”
- “Imagine a system where leaders serve the people — not the other way around.”
- “Our vote is not a favour — it’s a right. And it’s time we take it back.”

If you tell me your audience (e.g. general public, activists, media) and tone (e.g. bold, hopeful, urgent), I can tailor it further. Here’s a punchier, urgent, no-nonsense launch line that blends your sentiments:

“Enough talk. Today, we launch Reset America — a movement built not on promises, but on action. 80% of voters already agree: it’s time to change the system, impose real limits, and take back our democracy.”

If you like, I can craft full versions for social media, press release, speech openers, etc., all aligned with this launch tone. Here’s a draft of a press-release opening (and structure) you can use to launch Reset America. Feel free to edit details (dates, names, numbers) so they’re accurate:

FOR IMMEDIATE RELEASE: [Portland, Oregon – Sep 30, 2025]

“Enough talk — we’re launching Reset America to turn citizens’ demands into real change.”

Today marks the official launch of **Reset America**, a bold new political movement built not on promises, but on action. With 80 percent of Americans already demanding stronger accountability, term limits, and a reset of how we govern — this is the moment we must seize.

Reset America isn’t another platform or talk show; it’s a plan. We are mobilizing citizens, building coalitions, and pushing for structural reforms that change how people vote, how long leaders serve, and who holds real power.” This is what you’ve been demanding,” said [Name, Title, Reset America]. “No more delays. No more political games. It’s time for democracy to work for the people — not the politicians.”

Key elements of our mission:

- Empower citizens to reclaim their voice in government
- Enforce strict term limits for all elected offices
- Restructure the nomination and voting processes
- Build local chapters to ensure grassroots oversight

Over the coming weeks, Reset America will host launch events, publish a detailed reform roadmap, and invite every American to join in demanding lasting change.

If you like, I can write a full, ready-to-distribute press release (500 words max) with your specifics filled in (founders, launch date, roadmap). Would you like me to flesh that out now?

Post – 1 (Include Elevator Pitch)

Introduction - Hospital

I almost died 2 months ago. I didn't tell anyone because I wasn't ready. I passed out on my couch on July 3. Six days later, I awoke at a local hospital. My face was black and my lips were bleeding. If my neighbor wasn't concerned and didn't check on me, I most certainly would have died / would be dead.

Just before I lost consciousness, I was about to officially launch Reset America. I spent the last 10 years of my life working on this project and it would be a huge shame if I died before it was launched. Practically speaking, my days are numbered. I'm quite cool with this so I'm not asking for sympathy. But I do have one favor to ask.

I'm devoting the rest of my life to this cause. I put everything I had into this plus… Lost everything due to.... So, if there's one thing that you can do for me while I'm still alive, it is to join Reset America.

I am dedicating the rest of my life to this goal. i dont have long to kive and i want to see this happen before i die because we' ll never have a chance like this again.

You KNOW the problem. You even KNOW the solution. Now, let's go make it happen.

Post – Update

A few months ago, I posted a video about a plan to end our corrupt 2-party monopoly.

I am blown away by how many people liked this video. This is especially amazing since I didn't promote it at all - except for making one single post. This only proves how important these issues are to people. Imagine what will happen if we have the opportunity to seriously / actually promote it.

It gives me such a feeling of gratitude knowing that you liked it. And it also gives me a feeling of security in that I didn't waste all this money (and years of my life) to do this. So, though I'm really broke, I'm extremely optimistic at the same time.

Now, I need to convert these likes into income. I cannot put any more money into this project since I still haven't recovered financially due to my health collapse from 10 years ago. Please help me spread this message – which, by the way, 80% of you already support. Also, visit my website and read my book, Mistaken Beliefs, which is available on our website.

Most important, join Reset America. When you do, feel free to text or call me at 503-805-7333. I'm available 24/7. (I keep an unusual sleep schedule due to my health issues.)

Peace & Love, Mike (Gozian) Jingozian.

Posts: Fundraising

So, I'm asking for your help. I spent everything I had on this project, and I'm really broke. I lost everything when I got sick 10 years ago. But I'm not freaking-out worried because the message turned out wonderfully. I'm also overwhelmed by the response to my initial videos. But now a desperately need revenue. If this movement doesn't pay for itself immediately, then I need to let it go. Also, I'd rather spend my time spreading this message than pleading ~~asking~~ for help.

Please don't let this opportunity slip by. This is the only chance we will ever have to get what you already know we need – and it just may be our only chance to avoid a violent civil war.

I'm dedicating the rest of my life towards getting Reset America off the ground and accomplishing these goals. My days are numbered and this needs to happen while I'm still alive. Please join. Get details from our GoFundMe page.

I spent everything I have on this project, and now it needs to bring in revenue or I must abandon this project. I would rather not give it up since the plan is simple, realistic and we've already had big wins.

Donating Money to Ds or Rs.

If you've ever donated money to a D or R, then you must read this message.
Did you contribute money to democrat or republican candidates?
Did you get what you paid for?

I need your Help

I spent everything I had to develop all this. I'm delighted with how it all turned out. The plan is brilliant, but I need donations to keep it going and if this doesn't pay for itself right now, then I need to give it up. I would rather not give it up since we've already had big wins. This would be a big shame since this is the only movement fighting for what voters want and what we need.

If you don't help us by commenting or donating, then that means you're okay with the status quo.

So, take a small portion of what you donate to these ~~important~~ causes and fix the root problem which is the absence of accountability because our corrupt career politicians know that they'll be re-elected because they make election laws that prevent competition.

Do you know that the 2 parties will spend between $50 to 200 to convince you to vote for them. But the cost for 3rd party candidates is around $3.00 per vote. Give your hard-earned money where it will make a real difference.

So is single post is your peers from now 50 years from now, an issue is is cross ship when discussing Donald Trump, no discussion about issues. It's all going all discussions about his mental health issues and behavioral health issues.

Urgency

Do this now… I don't know how long that you corporate interests and the two parties will allow these videos to continue playing. But the more people who watch and "like" them, then the better chance they will spread. - regardless of social media corporate interests in the US government

Ending of video script for both videos.

I don't have the money to advertise, so it's vital that all our videos and posts become viral, so they'll appear more often in other people's feeds. So please Like all our videos and posts. Honestly, you don't need to watch-em. No… please watch-em.

Reasons to Join Reset America

- One I owe it to Mike for getting me out of trouble that night in Tijuana.
- I want term limits, and this is a very realistic plan to do this.
- I spent a lot of my money on more stupid things in this.

Our work has made real impact: But we need to keep up the momentum. Your donation will go directly toward creating new, compelling ads that will convince voters to support 3rd party candidates.

Your donation now will make a real difference in our fight to win back the House and Senate majority. Thank you for standing with us. Together, we can ensure a brighter future for our country.

Social Safety Nets

Almost Dying – Please help while you still can This movement is fantastic, but I desperately need your help. I got very sick about 10 years ago and I lost everything… my money, my house was in foreclosure and my health was terrible. My prescriptions alone were 2 grand a month. I'm okay now. But I wouldn't be alive if it wasn't for social safety nets. I got a lot of financial help from the government and State of Oregon. I owe a huge debt of gratitude to you (the American People) for helping me get back on my feet.

Please get involved and contribute via Go Fund Me. We have a few different programs that you can donate towards. Don't forget to like Comment, Like, Share and Watch our videos. Remember, there WILL be a revolution, but if we do this now, then it can be a peaceful one.

I'm 100% confident

I'm 100% confident that that this will work - so despite the fact that ha5ving no money valued enough to pay for a tooth I'm cool him 100% cool because I trust that the American people trust that you specifically you will understand that this about it all I ask is that you watch as video and then if you agree they get involved

Successes

The plan is simple and we've had major successes so far… like our video that won 4 awards for best short documentary and pilots for our tv show "I like Mike" from Barley Political and the Comedy Channel. All these videos are on our website… including videos to embarrass my kids, which are just adorable.

We have many programs in the works. And with just a little help from you, right now, we can make this happen. I've donated 1000's of dollars to fight for your freedom and now I need some help from you.

Fighting for Freedom

We don't need much money to make this happen, but we do need cash to keep this going. I don't want to guilt trip you - but millions of people died to give us the right to vote for who we want. Instead, we just give all this power and money to a small group of privileged self-serving scum who rig the system to profit at your expense. I'm asking for a small amount to return the power back to you. It this worth your time and attention.

Posts: Long

Reset America is simply a plan to give you what you already know that we need. It's realistic, easy, and doesn't cost a thing. It doesn't require help from Congress, and it can be achieved in just 2-3 elections.

Plea to put Differences Aside and Work Together Add from book

Our biggest problem is that the two parties pass laws that make competition impossible. But the 2nd biggest problem is the Difference in Income. This is collapsing the middle-class - becoming 3rd world nation where you have superrich and everyone else / poor. Use book..

Difference in income / Taxes / 93% tax & Debt

In the past, the tax rate for superrich was 93%… Now it is ___ to ___%.

If you need any further proof that the rich runs government, the tax rate used to be 93%. Everyone was happy, including the rich, there was no debt, we had civic pride, there was no debt - but over time, it was cut to ___%… So as you can guess, debt exploded. The interest for next year will be $1 trillion – for one year! So, who benefits with higher debt? Well, debt makes interest rates rise… so if you're rich or lender, it's Great! (That's why the rich supported the bill) that plus they got even more tax breaks! They all get richer at our expense. You can honestly say that "We had the best government money can buy."

Perfect Timing

Every 2 years, either one party or the other wants more parties (who doesn't want more parties.) But right now, our current political climate couldn't be better for Reset America. Currently, all voters from all parties are equally as irate as they are now. – in my wildest dreams!

Our government competes with itself.

Does China compete against itself? Does Russia, Mexico, Canada, Iran? But here in the US, the two parties compete against each other. While we should be focused on competing with the world, we compete amongst ourselves.

Using herd mentality to our advantage

Over 10 million people are already on board with us. * [This number is completely made up. I pulled this figure directly out-of-my-ass. It is meant to your satisfy your need to be persuaded by the herd]. The subject of herd mentality is covered in the book Mistaken Belief's in the chapter "How unconscious influences affect our decision-making" which causes us to make illogical decisions, particularly when it comes to voting.

Fighting for Freedom

We fought a revolution to take control of our government from the British. It's time for us to take back control of our government from the 2 parties.

In 1776, the American colonies declared their independence from Britain. For the next 8 years, they would fight a brutal war to defend our right to govern ourselves. More soldiers died from cold and hunger than in battle. Prisoners were chained in the bottom of ships in deplorable conditions. Since then, millions of other people have given their lives to protect our way of life. People made sacrifices, families were devastated, soldiers were kept in prison camps and died there. We need to honor the memories of those who came before us by showing them that their sacrifices meant something / were not in vain.

Our Founding Fathers strongly warned us that that a democracy is not sustainable unless the people actively participate. But instead, we handed all our money and power to a small group of people… and we just expect them to do the right thing.

Book

Read the book Mistaken Beliefs by Mike (Gozian) Jingozian. It's about things that we think are true but are not… and why everything you know about government is wrong. It's going to change how everyone thinks about government. Over half of it is posted on our website for free. Checkout the Top 10 Mistaken Beliefs. Let me know in the comments if you agree.

Our Voting Decisions are Contradictory

Why do we vote opposite to what we say that we want?

- 80% of voters want Term Limits, but we re-elect the same politicians over 95% of the time. This is like not eating dinner because there's no law that says we can eat. We can eat dinner without having a law that says that we can.
- In 2016, we had record low approval ratings for both nominees (41% & 33%), but less than 5% of people voted for an alternate candidate.
- 68% of people want 3rd parties, but we believe that "voting for 3rd party is a wasted vote." This is our number one Mistaken Belief - and the original title of my book, Mistaken Beliefs.

Join our Team

If you agree with this message, then please help. I'd like to work with a group of folks who are hard-working and agree with this message. This includes everything from running our organization to spreading this message. We need social media experts, podcasters, bloggers, YouTubers… folks with experience in fundraising, Patrion and kick-starter campaigns. I have no idea how long I have to live. (I'm not being negative, it's just life.) It would be a terrible shame if this message died with me. Plus, It's more fun working with others. In the words of my 17-year-old son, "You need a crew dad."

Request for Volunteers

Reset America is a simple plan to replace our corrupt 2 party system. It's 100% foolproof. Best of all, 80% of you already want these changes. Please help us. This movement will only success if you help. We need bloggers, podcasters and 3rd party activists. But, most important, please buy the book. Without contributions, we cannot afford to continue with this project.

Video re Mistaken Beliefs

I'm excited to announce that I just completed a video that explains my new book, Mistaken Beliefs. Please watch this and tell me how I can make it better. Here's a link to my YouTube playlist. This video is at the top. www.ResetAmerica.com/videos. In order to get this message out, I posted half of the book on my website for free. You should download it now. I do not know how long I will be offering it for free.

- Here's our list of The Top 10 Mistaken Beliefs.

Green Party Quote

"Those who profit by the status quo have no reason to change. They only listen to you on election day. After that, we don't matter. They lie to you, they tax you, they regulate you, and they track you, and in 4 years they'll be back talking about change." Mike Gozian Jingozian Green Party National Convention, 2008. Watch on CSPAN.

Lots of Haters / Enemies

This plan is a win for politicians and a win for us. But there are other groups that are terrified if we reach our goals. They are the entire Washington establishment and the swamp who profit by the status quo. Imagine if every lobbyist and special interest group had to start buying new members of Congress every six years. That's why it's more important than ever to support this message and spread this message.

Not finished

I feel so strongly that once people know the facts, they will vote for what benefits them – instead of how society tells them to vote. This is why I started Reset America… and why I put everything I had into this. Please help me happen before I die. <Something funny> universe / faith in the ap.

CIVIC Provide- people coming together (photo)

There's no question that people are getting tighter closer because we have the same problems goals and a common enemy. People want to change. This is a mission goal the same mission and goal perhaps this will bring the two "sides together. And a shirt and a new era of community in Civic Drive

"i talk to everyone mny kds are very imbarristed to go out w me in public. bt (before trump) 50% of strangers responded positively. now its over 95%. also i am now greated by others first which never happened BT. the change of friendliness and supportive in people is extraordinary. " Mike Jingozian.

Name of "Rank Voting"

Did you know I invented the term 'Rank Voting'? It used to be called Instant Runoff Voting. But I thought this was too complicated, so I simplified it to "ranked voting". Now, I'm using the term 'rank voting' since it's even shorter. I am ecstatic that this has caught on. Of my three goals, term limits rank voting equal rules, I was very worried that instant runoff voting would be too difficult to remember or explain. But after 10 years, its now called ranked voting and 80% of people say that they "like it."

Name baiting

We are familiar with the term ClickBank. Then you select a photo for exaggerated misleading heading because it's enticing? The same is true with politicians/our leaders". They create misleading names of bills so that on the surface rhey sounds great.. Here are some examples

Personal (Hold)

Satch Sanders (Add recent edits)

I want to recognize a person who had a major impact on my life… And in hopes that this no gets to him while he still alive.

I figure there's no time present to express my gratitude… And take a moment to recognize an individual who had enormous impact my life as a child and then (accidentally) followed in his footsteps.

I was abused as a child and have successfully blocked out most of these memories. My ideas, thoughts and achievements were criticized and ignored - but one individual took an interest in me.

i was about 10 years old … and I don't know why … but every Thursday afternoon, I was picked up from school, alone and in a small school bus (no jokes please 😀). I was driven to Northeastern University to talk with a very tall black guy.

We would chat for hours. It was definitely the coolest thing that happened to me in my life at that point. Here's a super nice guy who took a serious interest in me.

His name was Tom Sanders. I later learned that he was Satch Sanders, one of the Greatest basketball, players of all time and winning eight NBA championships.

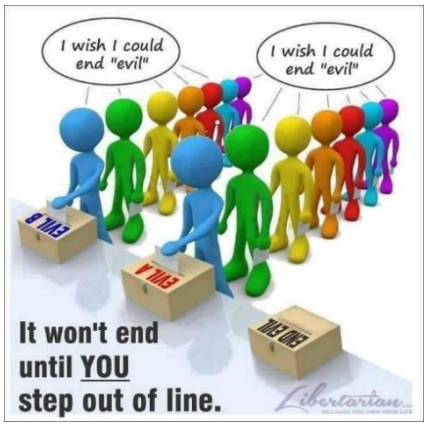

But the story doesn't end there. In 1981, I was accepted into NYU and graduated in 1983. NYU has a fantastic athletic facility open to all students and alumni. When I entered the complex for the first time, I saw photos of my friend posted all over the lobby. Little did I know that he attended NYU and was the number one college player at the time.

All major athletic programs were ended when the University consolidated all their campuses to Greenwich Village. However, they restarted their basketball program in 1983 when I began attending school.

I doubt he remembers me since he probably met so many other kids in his career. But I always wanted to thank him for the time and interest he spent with me and know that I followed in his footsteps is a graduate of NYU. Watch for an exciting announcement about Reset America.

Founder at Reset America

Reset America is an organization with a plan to change the nation's current policies and trajectory. We believe that our government must be reset by replacing our corrupt two-party system by offering voters more choices and better alternatives. Our goal is to show people that there are valid solutions to many of our worst problems, but these solutions are running out of time and are not in the interest of those who created the mess that we have today.

- Video - Kiss Freedom Goodbye

  In 2008, I produced an online video entitled, Kiss Freedom Goodbye. It exposed the many ways that the Democrats and Republicans make unfair laws to force-out competition to maintain their grip on political power. The movie was honored with a Telly, W3, Marcom and Ava award for best short political video. We are currently seeking Executive Producers to help create a full-length documentary based on this previous video. It's sure to be a success given the extraordinary success of this previous video.

~~Nothing is more important than who we elect to run our government. We are fighting to give you the freedom to vote for who you want and not just candidates chosen by the two-parties.~~

Our political situation is a shitshow… and it's only getting worse as we re-elect the same people and support the same parties that created this mess. The approval rating for Congress is 7% and the re-election rate is 95%. How can you achieve such an incredibly high re-election rate with such a miserable approval rating? You prevent competition.

Our only solution is to add competition to the 2 parties and replace career politicians. To do this, we must only vote for candidates who pledge their support to three specific changes in our election laws. Luckily, these are changes that you (the American People) already support… overwhelmingly … and on both sides.

They are Term Limits, Ranked Voting and Equal Rules and Laws for 3rd Parties so independent candidates can have a fair chance of being elected to office.

These are changes that the vast majority of voters already want, proving that we are not as polarized as the parties want us think. (This is #1 on our list of Mistaken Beliefs.) So, we are NOT trying to convince you of anything.

There are simple, no-cost solutions to our worst problems that are not even considered because they don't help politicians get re-elected. But time is running out. We must take immediate steps to change the trajectory of our nation while we still can.

Please watch our Welcome Video. It is a brief introduction to Reset America. Forward this to everyone you know. Do it NOW. Remember, there WILL be a revolution... but if we do this, then it won't be a violent one. 1. What we are trying to Achieve

Reset America is a simple plan to replace our corrupt 2-party system.

We are all angry and we all want change, but change is impossible if we continue to elect the same people and support the same parties that created the system that we have today - and who are profiting by it more and more.

Our goal is to convince Americans to only vote for candidates who support these three policies. Fortunately, these are changes that you (the American People) already support, overwhelmingly, and on "both sides."

1. Term Limits — This will replace career politicians with people willing to put your interests above their own.
2. Rank Voting — This will avoid the Spoiler Effect so that you can vote for whoever you want and not risk electing someone who you hate even more.
3. Equal Laws — This will end the 2-party monopoly to give independents and 3rd party candidates a fair chance to be elected.

This can't be made any easier. These three changes won't solve all our problems overnight, but they are a necessary first step for any meaningful change to happen and avoid a violent revolution. A small donation of $5.00 can help make it happen. Please visit our GoFundMe page at https://gofund.me/0df85557. Make a difference.

2. Are we really "Polarized"?

We are not as polarized as we think. (This is one of our Top 10 Mistaken Beliefs.) Consider the public opinion data.

- 80% of us want Term Limits.
- 80% of us think positively about Ranked Voting
- 68% of us want 3rd parties.

I may not be the sharpest knife in the drawer but please tell me how…

- 80% of people can strongly want something and we call that a society that's "polarized."
- And 80% of you have a positive view of Ranked Voting. Please tell me how 80% of people feeling strongly about something means that we're polarized? Sorry, I just asked that.
- And 68% of us want 3rd parties. That's not being polarized either.
- And, by the way, 93% of us dislike government! How the fuck is this being polarized?

Maybe it's because our "leaders" want us to be polarized. They want us to point fingers at each other instead of at them. They're not "leaders" at all. They act more like children (and our children are acting more like leaders.)

- We are all angry.
- We all want change.
- We already know that change needs to come from outside the system.
- We already know that we need 3rd parties to add competition to the Democratic and Republican Parties.

A small donation of $5.00 can help make it happen. Please visit our GoFundMe page at https://gofund.me/0df85557. #ResetAmerica #MistakenBeliefs #ThirdParties #MikeGozian #MikeJingozian #AngelCore

We must work together and put aside distraction issues that the 2-parties use to polarize us to prevent the changes that we know we must make.

3. The Issues don't Matter

It doesn't matter what we want to see changed in Washington. The only chance that you will ever have to achieve your particular goals is to join together towards our common goal of creating a real democratic election process. It's a complete waste of time, money and energy to debate policy on any issue until we hold our leaders accountable, and this starts by changing how they are incentivized.

The Reset America plan does not embrace any specific issue (other than resetting our election process of course.) We purposely don't take sides or even care about how you feel about any partisan issue. You can be Democrat, Republican, liberation, green, or even fluorescent. Our only goal is to unify all people around our common desire to take back government from career politicians and the 2 parties.

We must Fix the Root Problem Together.

Whatever is your particular concern, no changes are possible because our system was built by the same people who are still profiting by it today.

Let's use global warming as an example. There has never been a greater threat to our species and planet than global warming. Fortunately, we know what we need to do to address this crisis. But sadly, this will never happen while nearly all of Congress has some level of interest in the success of energy companies.

Take for example Senator Joe Manchin (Democrat). Manchin chairs the Senate Committee on Energy and Natural Resources. It is the top position in ensuring we pursue more climate-friendly policies - and he is adamantly against addressing the effects of global warming. Why? Do you think that it has anything to do with the fact that he owns a coal company, Enersystems, and last year alone, he was paid $491,949? Or that he receives the most funding of any senator from the oil and gas industry?

He's not alone. All members of Congress are allowed to use inside information gained from doing their job for their personal benefit. Even as chairman of his committee, Manchin can trade stocks based on the decisions that his committee makes and how he votes. But he's not the only legislator who is guilty of insider trading and bribery. The majority of Congress engages in practices to make money for themselves, while jeopardizing the future of our children and nation. Worst of all, this is all legal.

5. Change only comes from Outside

Watch a video about our book, Mistaken Beliefs here.

All revolutionary change comes from outside the system. There is no other way. This is especially relevant in politics because the people in power can make their own laws to prevent competition. How else can you have a 95% re-election rate with a 7% approval rating?

Politicians and the rich are always saying how competition benefits everyone. So, wouldn't it be good for our 2 parties as well? The changes that we need to make won't happen by re-electing the same people and supporting the same parties that created the disasters that we face today - and who are profiting by the system they created more and more.

Ben Franklin said that change can only come from one direction, from outside the system. Think about it. All revolutionary change comes from outside. Think about it.

- The iPhone didn't come from AT&T.
- Amazon didn't come from a department store.
- AirBNB didn't come from a hotel chain.
- YouTube didn't come from a TV network.
- Uber didn't come from a car rental agency.
- Netflix didn't come from a broadcaster.
- E*TRADE didn't come from a brokerage company.
- Shit, even PornHub didn't come from Playboy!

We can no longer rely on our 'leaders' to put our interests before their own. It's time we elected people who are willing to do what's right… and to do this requires us to make 3 changes our election laws.

6. The Media doesn't ask the Right Questions

What the Media gets Wrong

We must stop talking about WHAT politicians say and start talking about WHY they say what they say. It's frustrating to watch the news and see all the attention focused in the wrong direction. We need to stop direction from the media and start taking action for ourselves. Here are some things that we can do right now to engage the media. I'm sure there are more.

Insist that the media is asking the right questions. We know that the Democrats are criminals and that the Republicans are liars. Reporting every detail of everything they do wrong is a waste of time. They are distractions that do not address the core issue - which is why we chose to accept our fate. There needs to be more news coverage about the issue of change. The media will cover these issues if we contact them and demand that they focus on the larger issues.

The Big Picture is Ignored

The media is not asking the right questions. They talk about the symptoms of our problems, but they ignore the big picture. The level of "getting to the root of a problem" is a 3 when it should be a 10.

They don't talk about what's most important like the motivations or intentions behind issues. They only report on trivial topics, like what Trump lied about today. We know he lies. Even his supporters know

Copyright (c) 2025

this. How is this news? Here's another example. Trump just submitted a motion for an appeal. The news is analyzing the merits of the arguments in the motion. But so what? The goal of the motion is not to make a legal point. He just wants to delay the trial, so he needs to invent justifications to support his excuses. It doesn't matter what those arguments are. They are just made-up, but the news and podcasters only focus on the details, which are just meaningless.

Issues that should be addressed

Here are some of the issues that should be addressed. We need to make the media know that these are the issues that we want discussed.

- How is the system rigged and what we can do about it?
- Why are people afraid of change?
- Practical and valid ideas to fix our problems and why these are not even considered.
- How our election process evolved in a way that allowed the 2 parties to nominate the 2 most disliked party nominees in US history in the last two presidential elections.
- What are the unconscious variables that effect our decisions, like confirmation bias and herd mentality?
- How could Donald Trump win the Republican primary with only 8.4% of the vote, and what can we do about this?

These are the issues that we should be discussing as a nation. Everything else is just noise.

7. Open Letter to Congress

OPEN LETTER TO CURRENT MEMBERS OF CONGRESS

Dear Current Democratic and Republican Legislators,

Let's face it. Our system is broken. Furthermore, you know that it is. Our problems are growing in number and their consequences are worsening. The situation is so bad that it can no longer be fixed. We need to start over. If you don't agree, then you are either (1) lying or (2) lack the intelligence to do your job. There is no third possibility.

BE A REAL "LEADER."

If you really care about our great country, then resign from office immediately and endorse the Reset Principles.

You put your hand on the Bible and swore to uphold the Constitution to our once great nation. Then, overtime you forsake that promise for world of bickering, partisanship, and personal gain. Certainly, you may have gone to Washington with the best of intentions, but after being engulfed in this corrupt system, the corruption rubbed off. It became acceptable to lie and cheat because everybody else lies and cheats.

No one expects you to own-up to the fact that your 2-party system is at fault. Very few people have the courage to change a system that propelled them into a powerful and separate class. No, I expect you to fight tooth and nail against a system that supports policies that help people and not the special interests who pay for your campaigns.

Copyright (c) 2025

YOUR COLLEAGUES ARE JUMPING SHIP… WHY DON'T YOU?

A record number of your associates have given up altogether. Justin Amash was one of the first to quit Congress and the Republican Party because of our failed political environment. He said…

> "Both parties mislead, misdirect, employ double standards, and lie. When you point this out, each side attacks you for suggesting their team is anything like the other team. Wake up, partisans—you are a mirror image of the other side, just with different biases and blind spots."

Former Presidential Candidate Andrew Yang quit the Democratic Party and plans to create a new party called the Forward Party. Others have announced plans to start 3rd parties, but as soon as they realize the number of unfair advantages created by your 2 parties, they quit.

I wish them well, but no 3rd party stands a chance when the election laws that you created prevent fair competition. You are always talking about how competition always helps companies and people in every industry. Why then do you prevent competition in our political system? Does it have anything to do with the fact that you maintain a 95% re-election rate with a 9% approval rating?

IF YOU REALLY CARE ABOUT OUR COUNTRY, THEN RESIGN IMMEDIATELY.

But there is one way that you can redeem yourself… and possibly keep your job. Pledge your support to these three policy changes - and if your constituents feel that you kept your promise - then might be re-elected.

4. Term Limits — This will replace career politicians with people willing to put your interests above their own.
5. Rank Voting — This will avoid the Spoiler Effect so that you can vote for whoever you want and not risk electing someone who you hate even more.
6. Equal Laws — This will end the 2-party monopoly to give independents and 3rd party candidates a fair chance to be elected.

This is a real once-in-a-lifetime opportunity to go down in history alongside our Founding Fathers – and the millions of people who died to give future generations a chance to live a better life. But instead, you bankrupted our nation, restricted our freedoms and built a system where - in the first time of our nation's history - future generations will have lower life expectancies and a lower standard of living. It's time for you to step aside.

Signed,
The American People

NOW, GO DO THE RIGHT THING.

PS… If you are a former Democrat or Republican, and you agree with this message, then please contact us. With your leadership, we can return our national back to a true constitutional republic based on fair and equal democratic elections. That's all any of us want.

How do you wish to be remembered?
